About MATEC Michigan

MATEC Michigan is a federally funded education and training center based at Wayne State University. Our mission is to increase the number of health care providers in Michigan who effectively diagnose, treat and manage HIV disease.

We design and present HIV/AIDS education programs for:

Physicians, Advanced Practice Nurses, Nurses, Dentists, Physician Assistants and Pharmacists

Saint Mary's Health Care

Patricia Martin, Pharm.D.
Associate Director, Medical Affairs
GILEAD Sciences

MATEC Michigan's *HIV Clinical Course for Pharmacists* is an interactive, hands-on course designed to help pharmacists acquire new knowledge about HIV disease and its treatment.

At the end of the program, participants will be able to:

- identify components of preferred regimens for the treatment of HIV infection
- discuss the management of key drug interactions and adverse drug interactions
- describe how antiretroviral resistance emerges and how it can be avoided
- identify common opportunistic infections and their treatment in HIV-positive persons

*There is no registration fee for this program.
